5. Scientific supervisor Main supervisor:

Associate Professor, Dr. *Nguyen Minh Tuan*

Secondary supervisor: Dr. *Do Minh Tuan*

6. Training institution: Academy of Journalism and Communication

7. New conclusions of the dissertation:

Firstly, the thesis presents the central concept of the topic: The quality of activities of the Provincial Steering Committee for Anti-Corruption and Negativity in the Red River Delta is the sum of the values in the activities of consulting, proposing, directing, leading, coordinating, urging, inspecting, supervising, and organizing the implementation of anti-corruption and negativity work, making this activity well meet the requirements of the tasks of the Provincial Steering Committee, contributing to ensuring that the Party is truly clean and strong.

Second, the thesis analyzes and explains solutions to improve the quality of operations of the Steering Committee for anti-corruption and anti-negativity in the Red River Delta at present, including analyzing and explaining two new breakthrough solutions, which are: (1) Perfecting the institutions on anti-corruption and anti-negativity and documents of the provincial Steering Committee in the Red River Delta. (2) Focusing on directing the strengthening of inspection, supervision, investigation, and settlement of complaints and denunciations; speeding up the investigation and handling of corruption and negativity cases effectively by the provincial Steering Committee in the Red River Delta.
