7. New conclusions:

This is a thesis on the History of the Communist Party of Vietnam, which systematically and comprehensively studies the Party's leadership combining national strength with the strength of the times from 1930 to 1954. Through the description, interpretation and presentation of research issues, the thesis contributes to clarifying the following contents:

First: The thesis has explained and analyzed the factors affecting the Party's leadership in combining national strength with the strength of the times from 1930 to 1954.

Second: The thesis deeply analyzes the Party's policies and directions in combining national strength with the strength of the times through two periods: 1930 - 1945; 1945 - 1954, on contents such as: building internal strength, searching for, taking advantage of external strength, combining national strength with the strength of the times...

Third: The thesis analyzes, points out the advantages, limitations and causes in the leadership of combining national strength with the strength of the Party's times from 1930 to 1954, from which the thesis draws some experiences based on scientific basis, with reference value for the present.
